€ 1,190,000.00

In the heart of Alto Garda, just a short walk from the historic center and the beaches, we offer for sale a prestigious, top-notch lake view penthouse. Located on the third and top floor of a very recently constructed building with very high energy efficiency, this property represents a unique object on the local real estate market: it is in fact the only apartment on the floor, guaranteeing total privacy and independence. The penthouse stands out for its luxury finishes, contemporary design, and breathtaking 360-degree views of the city and the stunning Lake Garda body of water. The layout of the interior spaces, generous and rational, is conceived as follows: spacious and very bright open-space with living area, dining area and open kitchen. The large floor-to-ceiling windows connect the environment to a splendid habitable terrace, large and perfectly exposed to the sun. Flexible sleeping area (up to 4 rooms). The native floor plan includes four bedrooms, currently configured in a luxury key and elegant functional spaces: Master suite, master room with en suite windowed bathroom, walk-in closet (built by joining two rooms) and vent on a private terrace and balcony. A large, bright studio with direct access to the main terrace. A room used as a professional laundry/ironing room connected to the balcony. Services and accessories: second guest bathroom (also windowed) and a practical storage room. The value of this property is further enhanced by a unique appurtenance section in the historic center: a private double garage in the basement and a comfortable cellar of the property. The property is sold partially furnished: full kitchen and bathrooms, with high-design furniture and is available from May 2027.
