In the renowned and highly sought-after hamlet of St. Alexander, we propose a spacious and sunny new penthouse, generously sized and set in a very elegant and rare context. Located on the first and top floor of a semi-detached house, the penthouse consists of an entrance hall leading to the modern living area, fully glazed and overlooking a south-facing terrace. There is also a convenient alcove terrace, also communicating with the living area. The apartment has three bedrooms, one of which has a windowed en suite bathroom, all communicating with a convenient balcony facing the opposite side from the living area. A second bathroom with velux serves the other bedrooms and the living area. In the hallway we find a practical storage area. The property is served by an elevator that leads to the floor of the dwelling and to the basement, where there are two garages, a multipurpose space (gym, tavern, etc.) and a large cellar, all owned. Some condominium parking spaces are available near the complex. On the ground floor, a small garden allows a direct connection with the bike/pedestrian path that leads directly to the lake. Exclusive and unobtainable property, thanks also to the location that offers an unprecedented and totally open view of the green.
