

SOLD! HOUSE SURROUNDED BY GREENERY

TENNO - (TN) - TRENTO ALTO ADIGE

€ 285,000.00

Immersed in nature, just a few hundred metres from the charming Lake Tenno, a charming house built with an external 'exposed stone' finish consisting of two separate and distinct property units. The building, which has been carefully renovated over the years, consists respectively of a two-room apartment and a three-room apartment, both designed on two levels, a spacious room used as a storage room that can also be accessed by car, and finally a woodshed. The building is enhanced by a flat plot of land that fades into an enchanted woodland totalling approximately 6000 square metres, which is also connected to a large rainwater collection tank. The recent installation of photovoltaic panels and the dedicated path leading to Lake Tenno in a few minutes' walk embellish the property. An oasis of tranquillity and peace where one is captivated by the charm of the surrounding nature but at the same time only a few minutes' drive from the main services. Property exempt from Gilmozzi lien, interesting investment.
